Discussions

Sue Stephens reviewed data and documents that are available for the Comprehensive Plan Review. The Mobility Study, the Sources Water Protection Plan, and the Community Survey were among the documents discussed. *Lou Prevost distributed a document entitled a Five Point Plan for Safe Water and Environment.*

Jim Weaver discussed the possibility of a joint planning effort between Wellsboro Borough, Charleston, Delmar, and Duncan Townships. The four municipalities share a number of common interests and issues.

Careful consideration should be given to selecting a qualified objective Consultant in areas that may need outside expertise in the revision process such as Municipal Planning involving Marcellus Shale community impact.

The committee as a whole discussed how to proceed with revision of the CP. It was decided to work on the goals and objective portion of the plan at May 25 meeting. Each member was asked to consider a problem or issue Wellsboro has that might be addressed by the plan as well as a positive community aspect that might be preserved by the plan.

Next meeting is the regularly scheduled meeting of the Planning Commission on May 25 and 7 pm.
